

Isabelle Ray-Coquard, MD, PhD
CENTRE LEON BÉRARD, LYON (FRANCE)

Prof. Isabelle Ray-Coquard is a prominent oncologist based at the **Centre Léon Bérard in Lyon, France**, where she specializes in **rare gynaecological cancers and sarcomas**. She obtained her medical degree in 1997 and has since developed a significant focus on translational research, particularly in ovarian cancer, coordinating the national reference center for rare ovarian cancers. Prof. Ray-Coquard has held various leadership roles in cancer research organizations, including serving as **clinical chair of the ENGOT network** and past president **of the GINECO group**, which is dedicated to gynaecological cancer research. She is also involved in multidisciplinary consultation meetings for sarcomas and gastrointestinal stromal tumors (GISTs). Her contributions to the field are recognized through her **extensive publications and active participation in international oncology societies**, emphasizing her commitment to improving treatment outcomes for patients with rare cancers.

ENGOT: European Network of Gynaecological Oncological Trial Groups; **GINECO:** Groupe d'Investigateurs Nationaux pour les Etudes des Cancers de l'Ovaire
